AI ENGINEER | FULL STACK DEVELOPER

+91 82965-26668 | chandanav0892@gmail.com

Profile Summary:

Full Stack AI Engineer with 4+ years of experience building and shipping LLM-powered products. Hands-on across the full stack — from RAG pipelines and prompt engineering on the backend to React interfaces on the frontend. Comfortable taking an AI feature from prototype to production. Looking for mid-level roles where I can own both the AI logic and the product experience around it.

Technical Skills:

GenAI: LLMs, RAG, Prompt Engineering, AI API Integration (OpenAI, Gemini), LangChain, MCP

Frameworks & Tools: LangChain, Vector Databases (FAISS / Chroma), REST APIs

Programming: Python (Flask, FastAPI, FastMCP), JavaScript, ReactJS

Frontend: HTML, CSS, Tailwind CSS, Bootstrap

DevOps & Platforms: Docker, Render, Azure (Basics), Ubuntu, macOS, Windows

Experience:

INFOSYS LTD., BENGALURU, INDIA

Associate Consultant | August 2022 – August 2026 | Full-Time

Client: KPMG

- Engineered LLM-powered features end-to-end with an agile team, building AI capabilities demonstrated directly to external clients as part of a product pitch pipeline.
- Built RAG-based workflows using LangChain, vector embeddings, and document ingestion to enable intelligent Q&A over enterprise documents and reduce manual lookup effort.
- Integrated React frontends with Flask APIs and backend AI services including OpenAI and Gemini, supporting chat interfaces, document upload flows, summarization, extraction, and Q&A use cases.

Client: P&G

- Worked on ReactJS and Python-based application development, including UI enhancements, API integration, defect fixes, and feature improvements.

Education:
